About Victory Closets

Victory Closets was born from the idea that something was missing from today's custom closet systems: **VERSATILITY**.

With other custom closet organizers, the design you select is fixed, adding a lot of pressure to really get the design right the first time. But what if your storage needs change in the future? Imagine if you could **reconfigure** your closet layout, whenever and however you want!

The Victory Closets patented custom closet system gives you beautiful, durable, sensibly-priced storage solutions with the flexibility to change as your needs change.

Change your mind? Change your design!

Our components are self-locking, simply lift and move.

We build your custom closet with our proprietary parts tailored to your specific needs and space configuration. The Victory Closets parts-based model makes the design process easy, and pricing is straightforward and affordable. Turnaround time is fast, and installation is quick and clean.

Standard Features

The Victory Closets wall-mounted system maximizes your floor-to-ceiling storage without impacting flooring or baseboards.

Shelves and panels are 14" deep and constructed of highly durable, scratch-resistant melamine.

We use the highest quality drawer construction; solid maple wood dovetailed drawer boxes with heavy duty undermount soft-close glides.

The face trim on our vertical panels gives your closet an elegant upgrade compared to basic square-edged panels.

Our patented system uses cleated shelving supports that provide greater stability than standard pins or fasteners by supporting the full depth of the shelves.

Your closet will be professionally installed by a Victory Closets installer.

Our limited lifetime warranty guarantees your Victory Closets system for as long as you live in your home.
